BUSY MORNING FOR BURGESS SOISSON IN POLICE COURT.

Report of the Executive Committee for the Two Fiscal Years
Ending on May 31, 1906, Presented and Approved.

845 PATIENTS WERE TREATED.

Of This Number 777 Recovered, While
of the 68 Deaths a Large Proportion
Were Necessarily Fatal—Other Statistics of the Institution.

The Trustees of the College State Hospital met yesterday afternoon at the hospital and organized for the ensuing year by the election of the following officers: President, Col. James M. Reid; Secretary, Dr. T. H. White; Treasurer, Charles Davidson. The President appointed the following committees: Executive, Col. J. M. Reid, Charles Davidson, Dr. J. B. Ewing, H. P. Snyder and Dr. T. H. White; Finance, Major Geo. W. Neff, H. S. Spurr, Charles Davidson, Dr. T. H. White, Dr. J. B. Ewing and Dr. H. P. Atkinson. The report of the Executive Committee was presented and approved as follows:

The Executive Committee would respectfully report that for the two fiscal years ending May 31, 1906, the number of patients treated in the hospital was 845, of which number 777 recovered. Of the 68 deaths, a large proportion were cases which were necessarily fatal. The victims died within a few hours after admission.

The total expenses were \$24,766.57, of which \$18,440.75 was paid by the State appropriations and \$6,325.82 by the railroad and coal and coke companies. Our extraordinary expenses, which were provided for in the State appropriation, were for Rountree Day Apparatus and room for same, \$1,000; insurance, \$2,148.89; repairs to floors, \$2,745; new floor in smoking room, \$4,655; total, \$11,554.68.

The aggregate number of days and patients was 495, of which 38 died. The expenses were \$12,218.32. Of this amount \$9,519.64 was met by State appropriation and \$2,698.68 by receipts from patients. The average cost of maintenance was \$1.09 per day, which was somewhat lower than the previous year.

Early in November the State Board of Charities met in Pittsburgh and according to custom the Secretary of the Board met them and urged their needs for the ensuing two years as follows:

For maintenance, 2 years, \$20,000
For new ambulance, \$500
For insurance, \$300

Total, \$21,100. This amount was recommended to the Legislature by the Board. But some necessary repairs and painting were overlooked, so a supplementary request for \$800 for this purpose was made to the Legislature, and a bill has been introduced for an appropriation of \$21,900 instead of \$21,100.

As our receipts from pay patients have somewhat overran our requirements for a few months past, we have directed the Superintendent to have the wards rearranged where they have been getting off and to purchase a supply of new blankets.

During the year the Superintendent has managed the institution very judiciously and has made no complaints whatever in regard to nurses or other employees.

After some discussion of plans, it was agreed to make two private rooms in the south ward. This concluded the business and the Trustees adjourned.

NARROW ESCAPE.

Home of Adam Brown Burned at Everson This Morning from Exploding Lamp.

The home of Adam Brown on Brown street, Everson, was burned this morning at 4 o'clock. Not a thing in the house was saved. The owner, Mr. Brown, and his daughter, had a narrow escape. They were awakened by the cracking of the flames and barely got out in time to save their lives.

The fire started from the explosion of a lamp that had been left burning in a front room during the night. The lamp had just been filled before Mr. Brown retired, but what caused the explosion is not known. The fire was too far advanced to save any thing when it was discovered. Adjoining property was not damaged.

INDIANS LEAD

In the Membership Contest That is Under Way in the Connellsville Y. M. C. A.

The membership contest is creating great interest. The Indians are still in the lead, but since the election of W. N. Leche, has gone out of town for a few days, the Tigers, Soldiers and Redskins are making strenuous efforts to get their belts full of scalps. Only seven more days to work. The Bulls and Bears of the Junior teams are hustling and victory will go to the winner on a close margin.

Every member of the Association is expected to attend the first quarterly meeting and member's reception in the hall Monday night at 8 o'clock. There will be short reports of all departments and some short talks by members, a good social time and light refreshments. The home-town for the loving cups will be started at this meeting. The progress of the past quarter and the inside work of the Association will be of interest to every man.

The greatest "Pop" will be given Saturday night. Mr. Harrison, who has been a resident of Alaska, will speak of that country, its people, climate, resources, politics, etc., and the price is but ten cents. He will also stereotyped views of that interesting United States domain about which people know so little.

A LATER LEASE

Entitles Him to Hold Possession of Farm Says Minor.

W. H. Minor of Bullskin township contests the ejectment suit of Clark Collins and in answer to a petition by Minor Judge R. E. Umbel has granted a rule on Collins to show cause why judgment should not be opened and the defendant let into a defense. Collins in his statement refers to the terms of the lease of January 1, 1903, and Minor answers that he no longer holds the farm under the old lease but in possession by terms of a later lease which does not require the payment of rent in advance.

Relative to the amount due, which is only for a month or two, Minor says he tendered it to Collins and the latter refused to accept it, demanding possession of the farm. Minor conducts a dairy, serving Connellsville customers. He represents that it would be a great hardship for him to have to give up the farm on such short notice. J. P. Detweiler is his attorney.

Jury Sends for Lunch in Jury Room and Court Orders Recess Until This Afternoon
Disagreement Now Looks Very Probable.

NEW YORK, Apr. 12.—[Special.]—Just about noon when I became apparent that no verdict was in immediate sight Thaw's relatives told him another visit to the pen. The police were forced to beat back a mob of children and men in a tremendous mob that blocked the streets when the women of the Thaw party left the court house for luncheon. When they reached the front door they were met by a yelling crowd so great that the women were forced to turn back and seek shelter in the hallway. Their automobile was drawn in close to the door and the police opened a passage way. When the Thaws started out the crowd made a terrific rush and the police were driven to use brawny measures.

Many men and women were knocked down in the charge and were trampled upon. When Bechin made her exit, walking between lawyers O'Reilly and Penbody, the crowd cheered wildly, waving hats as if greeting a queen. Hundreds of cameras were in focus on the throng and snapshots were taken. Justice Fitzgerald was also given a rousing cheer when he left the court house for lunch. The mob then grouped themselves about waiting to repeat the scene when the party will return.

At 3 o'clock this afternoon the jury had not reported in court. NEW YORK, Apr. 12.—The Thaw jury went to breakfast at Broadway Central Hotel at 7:05 o'clock this morning and returned at 9:15 o'clock and immediately resumed the consideration of their verdict. At 10 o'clock there was a persistent rumor about the court house, which was given considerable credence by stories for the defense and for the State that at that hour the jury stood alone for conviction on a charge of manslaughter in the first degree, carrying with it indeterminate sentence with a maximum penalty of 20 years imprisonment and three for acquittal.

These favoring acquittal are said to be Sterle, Healy and Bolton. It is also said that the State's attorneys have practically given up hope of securing a conviction on the charge of first degree murder, but that Jerome expects the jury to vote out some sort of punishment to the prisoner. It only to subdue his exaggerated ego.

Thaw spent another comparatively restless night in the Tombs. When urged by his keepers to retire he did so, but tossed and tumbled restlessly all night long. He was up early to day and his "nerves" was stronger with the breaking of daylight. The relatives of the hotel faced little but Evelyn had scarcely closed her eyes since the case went to the jury and all show marks of care and worry.

The women of the Thaw party arrived at the court room at 10:25 o'clock and went to Justice Fitzgerald's chambers.

WOOD DOG TAX BILL.

An Automobile Amendment Killed It At The Last Minute.

A JOKE AT INOPPORTUNE TIME

Caught House in Humorous Mood and Result Was Good Revenue Maker for State and of Benefit to Farmers Was Buried—Other Bills Up.

Special to The Courier.

HARRISBURG, Apr. 12.—One of those streaks of schoolboyish levity which hits the House of Representatives every once in a while, an amendment to the bill for a Wood Dog Tax bill, for it came in as the Dog Tax bill was reached on the calendar for final passage. This bill had been favorably received, not only as an economic measure but as a revenue producer. But, as soon as the bill came up an amendment was introduced providing "that each dog shall carry two white lights in front and one red light behind and that all license numbers be illuminated after sunset."

Right there was rung the death knell of a bill which would have been of great public benefit, especially to the farmers; for the bill was almost mainly at the dogs which destroy sheep. But the body of the House couldn't see it in that light. They adopted the "Automobile" amendment with one of those warpath ballots which the House always gives when it is having fun and then similar crazy-house amendments came so fast that no one could keep track of them. After that the roll call buried the bill. Chairman Shively of the House Appropriations Committee has about reached the conclusion that the Cochran Soldier Pension bill, carrying from \$7,000,000 to \$10,000,000, must be recommended to the House, would mean its passage. Such action would necessitate the enactment of practically all of the proposed revenue bills or an exceedingly heavy out of the appropriations to charities. Mr. Shively would like to find some way of emptying from the provisions of pension act all veterans who are holding public office. He believes this would cut down the total expenditure considerably.

The House yesterday defeated the bills taxing manufacturers; corporations, inheritances and stock transfers. The Howard inheritance tax measure was generally assented. The House passed finally these revenue raisers. Placing a tax of three cents a ton on anthracite coal; taxing express companies; belatedly bill to tax for local purposes the real estate of public service corporations; the McClain bills returning the personal property tax and the liquor license fees to the counties.

Another Republican party pledge was redeemed by the House yesterday afternoon in the final passage of the Housher trolley eminent domain bill. There was no debate and the vote was unanimous. This morning the Senate passed on second reading the Housher trolley eminent domain bill.

The House Electors Committee brought out a bill fixing a registration day in third class cities on the third Saturday before the spring primaries.

GAS DISPUTE.

Greensboro Natural Gas Company and Home Gas Company at Smithfield Scrapping Over Contract.

UNIONTOWN, Apr. 12.—A hearing was held today before Judge Fitch in an action brought in the case of the Greensboro Natural Gas Company against the Home Oil & Gas Company. The hearing is to establish the validity of a contract, made October 12, 1906, The Home company has two acts of gas wells, said to be the best in this section of the State, and a contract was made that the product of these wells would be sold to the Greensboro Natural Gas Company at the rate of 4 cents per 1,000 feet. The gas was turned into the Greensboro company's lines and all the towns from Houserville to Pittsburgh were supplied with the gas. Some time after the contract was made the officers of the Home company turned the gas off and claiming that the agreement made was not valid, and an injunction was secured by the Greensboro company restraining the Home company from selling or disposing in any way of the gas.

The Home company claims that the contract made with the Greensboro company was entered into by several officers of the company in the bank at Smithfield, Pa., without any authority on their part. They claim that the men who made the contract were interested in both companies.

LATROBE, Pa., April 12.—Ladies Seaside, whose husband is leader of the Seaside orchestra was bound, gagged and chloroformed by a robber at her home Wednesday at midnight. She was alone in the house except for her husband's father, Jacob Seaside, an aged man who had gone to bed early and slept undisturbed. She went outside to sweep a snow from the porch and during her absence a robber slipped into the parlor where he laid hold of the piano.

After she had retired, she awoke to find a man collecting jewelry from a dresser. Deciding he would kill her if she made an outcry, he forced a gag into her mouth, blindfolded her with a handkerchief. He then bound her hands and feet, tying her feet to the foot of the bed.

He is supposed to have been frightened away, as in his flight he dropped part of his booty. Mrs. Seaside became unconscious and was rescued by her husband upon his return from a theatre where he had been playing. The police have found no clue.

JOSEPH JOY IN HOGG ADDITION

First Arrest Made in Town's New Addition—Was Attempting to Break Into Y. M. C. A. Secretary's House. Some Are Held for Investigations.

The gloomy weather seemed to have a depressing effect upon the male population last night and as a result of it there were some that tried to drown their sadness with intoxicants, 14 of them landing in the basile while one gathered in this morning was still suffering from the effects of his spree that he was too drunk to be given a hearing.

James Joy from Marshall works, south of Uniontown, came all the way here to get his dose of joy water and he became so befuddled that he wandered out in the Hogg addition and attempted to break into the home of E. B. Eby, Y. M. C. A. Secretary. Mr. Eby was attending a meeting in New Haven and the man badly scared Mrs. Eby and the children. An officer was sent after him and he was placed in the cooler before he got into the house.

Mike Trump was disorderly at the Marietta Hotel according to the officers' reports, and the proprietor had him jailed. He pleaded innocence and his case was held over for further investigation.

Samuel, better known as Petie Barnes, was arrested upon complaint of some women folks. He said that he wasn't drunk, but said that he had a few while on his way from work. Burgess Sisson gave him a talking to and advised him to stay away from home while inebriated. He was given 48 hours to sober up.

Charles Traylor of Coalbrook just came to town and hit up a few. He must have taken a few too many, as he was good and nervous from the night of revelry. He paid \$3.50 and was released.

Marshall Spillard, colored, of Piedmont, W. Va., en route to Youngstown, O., stopped off in Connellsville to let his family know he had gotten this far. He went to the postoffice but didn't mail any letter. On a charge of being a suspicious character, he was held, pending an investigation. Spillard testified that he had been in town only one day and the officers stated that they had been watching him about the postoffice for upwards of a week.

Daniel Nolan who has just returned from a 30-day trip to Uniontown, was arrested at his Water street home last night. He wasn't bad but was getting an edge on when the officers requested him to take him away. He got 48 hours.

James Smith was arrested at 1 o'clock this morning for being drunk. He was fined \$3.00.

John Shively, who was given a bed in the police station Wednesday night, was promised to go home to Lelsensville No. 2 yesterday morning. He released. Instead of doing that he went out and borrowed a quarter and had to be wheeled to the lockup. He claimed that he gave a friend \$25 to keep for him while he was drunk and he couldn't find the friend.

Alex. Huggard was charged with disorderly conduct and drunkenness. He annoyed people along the streets by stopping them and attempting to quarrel with them. He was fined \$5 or serve 72 hours.

M. Flynn, Greensburg, came to town for medical attention and got lost. He applied for a bed at the police station and was locked up. He said that he had been drinking just a little bit. The officers were directed to investigate his case.

New York, April 12.—The first game of the season between the New York and Philadelphia National league teams was forfeited to Philadelphia, 9 to 0. For some unexplained reason there were no police on the Polo grounds and the crowd surged on the field during the second half of the eighth inning. The players were unable to continue but Umpire Klein, instead of immediately calling the game and giving it to Philadelphia, waited until 15 minutes had expired. A roundsman and three patrolmen in the meanwhile came upon the scene but they were unable to do anything with the unruly mob, some of the members of which amused themselves by throwing bottles, glasses and cushions in all directions. The roundsman told Roger Bresnahan of the local club that he had orders not to interfere with the crowd and the demonstration turned into a good natured jollification. The umpire announced that he had forfeited the game to the Philadelphia. The score was 3 to 0 in favor of the visitors.

THE ROOSEVELT REVOLUTION.

Some of the political prophets who have had their ears nailed to the ground for some months past think they hear sounds of a Roosevelt revolution that promises to sweep away his solemn declaration that he would not again be a candidate for President, to smash the unwritten law against a third term and break down the barriers between the great political parties and usher in a second era of good feeling.

A Southern Democrat of the most pronounced Bourbon type has declared that Theodore Roosevelt should be the nominee of the Democratic party and that William Jennings Bryan should nominate him in the next Democratic National Convention. Colonel Bryan did not say nay to this proposition, but practically took it under advisement. He indicated that the idea of a Republican was not necessarily repugnant to him by suggesting himself the name of Senator La Follette of Wisconsin.

The proposition is not all pure reform and honest government. There is quite a bit of Democratic politics contained in it. It will be recalled that the Democrats of Pennsylvania nominated a Republican to head their ticket last fall. They hoped to get an entering wedge into political power by splitting the Republican forces in two and using the ruins of the party to build their own supremacy. The Democratic proposition has now been made national in character, but it is the same old game.

If it is the sense of a majority of the Republicans of the country that President Roosevelt should be re-nominated, he should be and he will be, with the cordial acquiescence of the whole Republican party and without the advice or consent of the opposition. There will be no bargaining with the enemy, no disastrous division, no march to destruction. The Republican will stand solidly together even as they did in Pennsylvania.

THE FOLLY OF THE BLUE LAWS.

The severe spirit of Sunday observance which is just now shaking Uniontown from center to circumference is beginning to betray its folly. The Sunday supply of milk is threatened. The babies won't have even blue milk. They will have to subsist on the Blue Laws. The diet will not be a grateful or a growing one for the future citizens.

A communication from a Uniontown newsdealer published in The Courier yesterday points out the inconsistency of discrimination in the matter of enforcing the Sabbath. Observance Association to enforce the law to the letter or not at all. There is much logic in his argument, yet in practice it has been found more in keeping with wisdom and common sense and the public's opinion of the eternal fitness of things not to refrain wholly from enforcement of the old Sunday laws.

The comforts and conveniences and even the necessities of life are not to be arbitrarily choked off to please a puritanical spirit, neither should there be a wide-open Sunday with ribald and riotous accompaniment. The purchase of a cigar or a glass of soda-water is not inconsistent with decency and sobriety and a proper respect for Sunday.

The Uniontown reformers should go back to a "safe and sane policy."

LEGISLATIVE BUFFONERY.

The House of Representatives at Harrisburg has earned for itself the questionable honor of being a merry lot of buffoons. It's all no doubt exasperatingly funny, especially to shrewd minds, but it's not statesmanship. The members of the Legislature were not sent to Harrisburg for the purpose of playing horse with each other and with important matters of legislation. They were sent there for

a serious purpose, and by their acts will the people judge them.

The defeat of Representative Wood's dog tax bill by making a joke of it is not the first instance of the kind. There have been a number of others. Wise measure demanded for the good of the people have been made idle sport of and defeated with a laugh instead of a thought.

Man is said to have descended from the monkey, and some of our lawmakers have evidently returned to the primitive state. They should be caged and left on the grounds to furnish the public with perpetual amusement; and their places in the halls of legislation should be occupied by men of sobriety and decorum, who know wisdom from wit and the proper place for both.

The Connelleville News calls the Uniontown Herald a Mollycoddle and calls it again for slurring the Fayette county judiciary. The Herald's "Independent" journalism does not seem to meet universal approval. It pleases neither the Democratic nor the Republican organs. Even Editor Lkins says it jars him.

The Annapolis Club will soon be strong enough to nominate a candidate of its own.

Uncle Grover Cleveland is accused of flitting with the Third Term, and Editor Bryan and Editor Bailey are beginning to repeat some of the dastly things they said about him in the dusty past.

Greene county is threatened with trolley lines. They will no doubt be welcome, but a railroad through her coal fields would be hailed with great enthusiasm.

This is Carnegie week in Pittsburg.

The Pennsylvania railroad management might call out the Goosacks to guard their trucks, first having obtained the consent and approval of the Democratic press generally and the Johnstown Democrat particularly.

The County Commissioners have finished holding tax appeals and will now tackle the Spring Primary.

The annual sanitary survey of the Department of Health is soon due.

The work of the Cottage State Hospital at Connelleville speaks for itself. It has done much for suffering humanity during its long and busy career, and its officers and managers and surgical staff have contributed freely of their time and effort to this behalf.

The Tweed Ring was never in it with the Capitol Grifters.

The liquor men have a lick on increased taxation, but they have to pay and trust to luck to get it back after wards. The ordinary taxpayer has a chance before the County Commissioners.

Point Marion is against a bond issue and in favor of the little red school house.

Spring is at hand and the three tramps who arrived in town this week are ahead of schedule time. Burgess Sisson thought they were too early and sent them to the jail to rest and wait.

The Fayette and Westmoreland bituminous coal interests were not forgotten at Harrisburg.

The baseball patch is being weeded out.

(The Young Men's Christian Association is not a menagerie, but it has a very strenuous membership contest on hand.

The armory proposition has reached the stage of cashing in.

The editorial fraternity are warning everybody about a bad ten-spot. The warning is purely philanthropic like so much of the newspaper work. The editor is safe. His money never runs into the large denominations.

COURT IN SOMERSET.

Both Judge Kooser and Judge O'Conner of Somerset on Bench.

A DAMAGE SUIT IS ON TRIAL.

Judge Kooser Hearing Case in Which Tract of Timber in Somerset County is in Dispute.

SOMERSET, Apr. 11.—The cases set for trial at the present term of civil court are being disposed of with unusual rapidity. Judge Francis J. O'Conner of Cambria county is holding court in Court Room No. 1 and Judge Francis J. Kooser of Somerset is hearing a case in Court Room No. 2. This is the first time in the history of the county that two judges have presided at one term of court. Judge O'Conner is hearing the case of Justus Volk vs. A. K. Bentley, a case brought for the collection of certain moneys alleged by the plaintiff to be due him from the defendant as payment for the construction of a dwelling house in Boswell, the home of both parties in this case, about two years ago. It is averred that the specifications of the contract were not observed. The defendant alleges that Volk did certain work which was not called for in the contract and then sought to collect for the same.

In the smaller of the court rooms Judge Kooser is hearing the case of Benjamin G. Bittner vs. Mahlon Christner, a collection of moneys. It seems that Bittner agreed that Christner could cut certain timber on his farm near Garrett. It was specified in the contract that no headlock should be cut by Christner above a certain road through the woods. Bittner alleges that timber was cut regardless of the contract and he seeks redress for the injury sustained by him by reason of the alleged indiscriminate lumbering operations of Christner. A mass of testimony seems to be necessary for the proper determination of this case and the jury will not retire for at least a day.

LOT SALE.

Auction and Private Sales at Blainesburg.

On Thursday, April 18, we will conduct another big sale in the new town, Blainesburg, opposite Brownsburg, 62 miles south of Pittsburgh. This is the junction point of five railroads, having 52 passenger trains daily and the greatest freight tonnage in the country, excepting only Pittsburgh.

The development of new coke plants, new coal mines, the construction of new electric lines, new railroads, new bridges and a new river lock on the Monongahela at this locality, make it the best place in the country for laborers, mechanics, business men, professional men and for the investment of money in real estate. Blainesburg is not yet one year old, but more than 100 new houses have been built here, and more than ever will be built this summer. Hundreds of lots have been sold that have increased more than 100 per cent. in value in less than twelve months.

This year will see real estate values multiply again in value and a few years will cause these lots to become worth as much per foot as we now ask for a lot.

We are now selling many lots, daily, in Blainesburg for from three to five times the price that adjoining lots brought less than a year ago.

Don't fail to come to this sale and buy one or more of these lots. Other attractions will consist of music by the Tenth Regiment, N. G. P., Band of Connelleville.

The giving away free of a lot to some lucky person in the crowd.

The giving away, free, of a bag of gold, paper and silver money to some lucky person in the crowd.

Free chances on these free gifts will be distributed. Sale begins at 1 o'clock P. M. Remember the date, Thursday, April 18. DUNN & MAUZY, original founders of Blainesburg, Main Office, Snowden building, Brownsburg, Pa.; branch office, Third street and Madison avenue, Blainesburg.

MINE RATINGS.

How Some Pits Get More Than Their Share of Cars.

Witnessing Intelligence. In the trial of the Pitsa Coal Company against the Baltimore & Ohio railroad, John Messner, a mine inspector, testified that he inspected many mines and gave them a rating of so many cars monthly. A majority of the mines he inspected had been idle for years, and the cars allotted to the non-working mines were delivered to the Fairmont Coal Company in addition to the regular allotment of cars made to it.

By this simple yet ingenious process the Fairmont Coal Company mines were supplied with about twice their fair proportion of cars, while the mines of the independent operators were short. This is probably only one of the dozen of cases of discrimination practised by the railroad company. Nor is there any reason to believe that the B. & O. railroad has been any greater or even so great an offender in this line as some other railroads. The appalling fact is that in whichever direction the light is turned, railroad management has been found to abound in petty corruption, private rebates and special favors to certain shippers, and glaring discrimination against others. The

B. & O. the Pennsylvania, the New York Central, the Southern Pacific have all been found offending, not once but many times.

A ROYAL TONIC.

Beats Anything We Ever Sold as a Strength Creator and Body Builder.

Our well known druggist, W. M. Porter, is very enthusiastic over the delicious cod liver preparation, Vinol, which contains no oil, in referring to the matter, Mr. Porter said: "We sell many tonics and we handle all kinds of remedies that claim to be tonics and strength creators, but when our advice is asked in regard to a tonic body-builder or strength creator we invariably recommend Vinol, as we know of nothing that can compare with it."

"In Vinol modern science has given us all of the tonic, body-building and creative elements of that famous old remedy, cod liver oil, actually taken from fresh cod fish, without a drop of the system-destroying oil which characterizes old-fashioned cod liver oil and emulsions."

"By the most natural manner Vinol tones up the digestive organs, creates a hearty appetite, makes, red, red blood, and strengthens every organ in the body."

"Our faith in Vinol is so strong that we gladly offer to refund the money in every case where it fails to give satisfaction." W. M. Porter Druggist.

Note.—While we are sole agents for Vinol in Connelleville, it is now for sale at the leading drug stores in nearly every town and city in the country. Look for the Vinol agency in your town.

The South Bend Watch Proves by the Pikes Peak Test

Every jeweler knows that one great cause of watch trouble is vibration. Automobiles, horseback riding and railroad travel will make the average watch run "fast" or "slow," but the test of all tests is the wonderful Cog Railroad way up Pikes Peak, in Colorado.

No where else in all the world is there such a test as this, where the steep grade of the mountain necessitates the use of cog wheels to force the train up the incline and control its descent, and vibration often so injures ordinary watches that an expert watchmaker must readjust them.

A conductor on the Pikes Peak Road made a ninety-day test of the South Bend Watch last summer.

only by reliable dealers. South Bend Watches are sold everywhere. They will be pleased to explain to you how a South Bend Watch adjusts itself to every temperature automatically.

COMMENCEMENT UP AT OHIO PYLE.

It Was Held on the Anniversary of Lee's Surrender.

VERY SUCCESSFUL TERM CLOSED

Schools Have Been Under the Tutelage of Prof. S. P. Boyer—Program That Was Carried Out on Tuesday Evening.

OHIO PYLE, April 11.—Approximately 1000 people were present at the public schools of the borough. The success of the term has been along the same lines as was the contest of our noble armies in the struggle for the maintenance of the Union and in the years closing with the day of which Tuesday was the forty-second anniversary.

The schools have been under the tutelage of Prof. S. P. Boyer as principal. Mrs. Boyer in care of Primary Room No. 1 and Miss Annie Rankin in No. 2. Marked improvement has been very manifest along all lines and in all three rooms. Deeper interest and more thorough work in preparation for recitations have been quite noticeable on the part of most of the scholars. A goodly number have only been absent from two to five days. There are, however, but four pupils that did not miss one day of the 140 days that the schools were open.

Heber Rush, Cora Holt and Cliff Corbett in No. 1 and Lloyd Linderman in No. 2 have a perfect attendance attached to their record. Prof. and Mrs. Boyer returned to their home in Shuylersburg, Somerset county, where they will conduct an eight-week session of Normal work. Miss Rankin returned to her home in Wharton township. Their many friends here wish all a successful and happy future.

SENT TO JAIL.

John Vito, Suspected of Being in Trouble up in Somerset County, Gets a Trip.

John Vito who was arrested Wednesday night on a charge of being a suspicious character, was given a hearing before Magistrate Miller and committed to jail. When arrested he had several pay envelopes of the Somerset Coal Company in his pockets. At the trial all that could be gotten out of him was that he killed no one.

The officers have communicated with Somerset county authorities and it is believed that the man may be connected with a tragedy near Scullton.

BAD TEN SPOT.

New Counterfeit Has Been Discovered by Secret Service.

The discovery of a new counterfeit \$10, Buffalo, U. S. note is announced by the U. S. secret service. It is of the specie of 1901 check letter A, Lyons, Register, Roberts, Treasurer. This counterfeit is apparently printed from woodcut plates of excellent workmanship, on two pieces of good quality paper, between which heavy pieces of silk have been distributed. The number of the note at hand is 3,582,737. This number compares favorably with the genuine both as to color and formation of figures.

The seal is somewhat darker than the genuine. The large 'X' which superimposes the 'Ten' is crimson instead of pink. There is an absence of cross-line work in the shading of the letters and in the medallion, containing the portraits of Lewis and Clark. These portraits are poorly executed. There is a period instead of a comma after Washington on the left-hand face of the note.

Y. M. C. A. AUXILIARY.

Officers Were Elected at Meeting on Wednesday Afternoon.

The Ladies' Auxiliary to the Y. M. C. A. met Wednesday afternoon at the Y. M. C. A. parlors and elected the following officers for the ensuing year: President, Miss Lloyd Johnson, Vice President, Mrs. H. M. Kerr, Second Vice President, Mrs. Rachael Barge, Secretary, Mrs. J. M. Young, Treasurer, Mrs. W. L. Neff, Pianist, Mrs. O. B. Poulton, Choir leader, Mrs. A. B. Morton.

The latter two officers were new ones added to the list of officers. The meeting was the regular one of the Auxiliary and the attendance was large. The Secretary, Mrs. J. M. Young, reported that out of the \$1000 subscribed to the Y. M. C. A. \$500 had been paid.

STRAUS STARTS TO WORK

Secretary of Commerce and Labor Begins Investigation.

Washington April 12.—A rigid inquiry into the operation of all the immigration stations of the country has been instituted by Secretary Straus of the department of commerce and labor. The investigation is not due to complaints of the methods of the immigration officers, but to a desire on the part of Secretary Straus to insure efficient service.

A few weeks ago the secretary made some radical changes in the assignments of officers of the steamboat inspection service. Following that, he instituted an investigation of the office of the shipping commissioners in the large ports of the country. In inaugurating an investigation of the immigration stations he is following out a general plan to examine every branch of the service of his department with a view to obtaining better results.

PLANTING TIME.

A Crop That is Never a Failure.

Planting time will soon be here when the farmer will put seed in the ground, and later if everything goes well, reap a bountiful harvest. There is always a risk however that the crop may be a failure but when you plant your dollars in a savings account in a strong bank—the First National Bank of Connellsville—for instance—you take no risk. You know absolutely beforehand what the crop will be—4 per cent compound interest on every dollar you plant. Wouldn't it be well to plant at least a dollar every pay day in that strong and accommodating bank where savings are absolutely safe?

If We Had Bought These Jack-ets Through Regular Channels They'd Cost \$1 More. Price, \$5.

Don't misunderstand the above statement and construe it into "sale talk" for it is a foregone conclusion that any reputable and established establishment cannot and will not cut prices on substantial merchandise at this time of year. However, sense and after all that the sense that makes the U. S. what it is, rebels against the thought that any establishment can sell goods at cut prices all the time.

THIS IS WHAT WE WANT YOU TO UNDERSTAND: That these jackets at \$5.00 are in value than \$5.00 jackets and two or three dollars, but, then you'll find in establishments that resort to the foolish in case of trying to hoodwink the public by so called reductions in price. Perhaps they do reduce the price but they also might have one to reduce prices that have been made to stand reduction.

The jackets concerned in this offer is meant to be tailored from all wool English flannels or suitings is you please. Faultless in style and tailoring and truly a dollar better than you would judge by the price they bear, through "Buying Power."

Window Hangings Indicate Most Truly the Taste of the Dweller Within.

Here's a Showing That's Tasteful At Prices Not Wasteful.

The above caption is obviously true. How often have you yourself passed a home where the window hangings were correct from a standpoint of good taste, and from just this point in itself have you remarked, "Haven't they a pretty home?" It's true, and no one can gainsay it, that tasteful window draperies are the least expensive and most potent adjunct to the exterior appearance of your home. Ours is a collection that justifies the pride we take in it, a collection that will appeal to your good taste and your judgment of values.
